

MOM

The most important person in my life is my mother. She is very hard working and caring as well. She takes care of each and every member of our family. She gets up early in the morning and makes food for us. My day starts with my mother and she gets me up from bed. She gets me ready for school and cooks delicious lunch for me. My mother also helps me with my homework. She is the best teacher for me. I love my mother so much.
