

HOLIDAY HOMEWORK Class III

☀️ 5 Rules for an Awesome Summer! ☀️

🕒 **The 2-Hour Rule:** Work on your homework for 2 hours every morning right after breakfast. Once it's out of the way, the rest of your day is 100% free for fun!

✍️ **Do It Yourself:** Use your own handwriting and your own creative ideas. Parents are there to help guide you, but you are the artist!

🎨 **Neat & Bright:** Keep your sheets clean and use plenty of colors. Don't forget to make a beautiful cover page with your Name and Class on it.

📺 **Unplug the Screens:** Spend less time on phones or TV. Go outside to play in the evening, read a storybook, or try a new hobby.

🍉 **Stay Healthy:** Drink lots of water, eat fresh fruits, and get plenty of sleep so you stay energized.

ENGLISH

Create a beautifully designed A3-size restaurant menu card inspired by the Andaman & Nicobar Islands Roll no (1-20) and Lakshadweep Islands Roll no (21-40).

Include a unique restaurant name, logo, catchy taglines, and dish names with prices, and sections for seafood dishes, forest-inspired meals, island specials, and tropical drinks. Use bright colors, artistic headings, and creative decorations to make it visually attractive and culturally themed. Use the below image as sample.

MATHEMATICS

A. Imagine that you are going on a trip to Andaman & Nicobar Islands or Sikkim.

Your task is to create a bill of expenses for your journey to the place you choose. Think about the money you would spend during your trip, such as:

1. Travel tickets
2. Hotel stay
3. Food expenses
4. Shopping
5. Entry tickets to tourist places
6. Any other travel expenses

Instructions:

Choose one place – Andaman & Nicobar Islands or Sikkim.

Make a neat bill/expense chart showing different items and their costs.

Add all the expenses and find the total amount spent.

Do your work in a A3 size Sheet, present it creatively with neat handwriting, colorful borders, drawings or pictures related to your chosen place.

Make your work colorful, creative, and enjoyable. Happy Holidays and Happy Learning! ✨

B. Revise all the work done. Do addition sums daily.

C. Learn multiplication tables 2-12.

Hindi
