MATHEMATICS

A. This holiday, let us explore the beauty of Sikkim Monasteries and Andaman & Nicobar Monuments through Mathematics and Art.

Holiday Homework:

Choose any ONE of the following:

◆ A famous monastery of Sikkim (Rumtek Monastery / Pemayangtse Monastery)

OR

◆ A famous monument of Andaman & Nicobar (Cellular Jail / Ross Island Ruins)

Task:

Draw the monument neatly using 2D shapes such as square, rectangle, triangle, circle, semicircle, etc.

Label the shapes used in your drawing.

Colour your drawing beautifully and make it attractive with a neat border inspired by cultural geometric patterns.

Below the drawing, write:

Name of the monument/monastery

Shapes used

2–3 interesting facts about the place

Presentation matters! Use only A3 size sheet.

Be creative, colourful, and keep your work neat and clean.

B. Revise all the work done. Practice addition, subtraction multiplication and division questions everyday.

C. Learn multiplication tables 2-20.

EVS

Roll no:1-13

Make a creative 3D Food Pyramid on the Traditional Foods of the Andaman & Nicobar Islands and Lakshadweep Islands using available materials at home. Show the different food groups neatly and label them properly. Include traditional foods from the Andaman & Nicobar Islands and Lakshadweep Islands. Decorate your model creatively.

Roll no:14-26

Make a 3D model showing the traditional handicrafts or paintings of the Andaman & Nicobar Islands and Lakshadweep Islands. You may use fabric pieces, mirrors, clay, thread, beads, shells, coconut leaves or other natural materials. Present your work neatly and creatively.

Roll no:27-40

Make a 3 D model showing the molecular arrangement in solids, liquids and gases. Use clay, balls, cardboard, cotton or coloured paper to show the arrangement of particles in each state. Label each part clearly.

Language Lab
