

Class – XII(Humanities)(2024-25)
English

Learning Outcomes

The general objectives at this stage are to:

- listen and comprehend live as well as record in writing oral presentations on a variety of topics
 - develop greater confidence and proficiency in the use of language skills necessary for social and academic purpose to participate in group discussions, interviews by making short oral presentation on given topics
 - perceive the overall meaning and organisation of the text (i.e., correlation of the vital portions of the text)
 - identify the central/main point and supporting details, etc., to build communicative competence in various lexicons of English
 - promote advanced language skills with an aim to develop the skills of reasoning, drawing inferences, etc. through meaningful activities
 - translate texts from mother tongue(s) into English and vice versa
 - develop ability and acquire knowledge required in order to engage in independent reflection and enquiry
 - read and comprehend extended texts (prescribed and non-prescribed) in the following genres: science fiction, drama, poetry, biography, autobiography, travel and sports literature, etc.
 - text-based writing (i.e., writing in response to questions or tasks based on prescribed or unseen texts) understand and respond to lectures, speeches, etc. write expository / argumentative essays, explaining or developing a topic, arguing a case, etc. write formal/informal letters and applications for different purposes
 - make use of contextual clues to infer meanings of unfamiliar vocabulary
 - select, compile and collate information for an oral presentation
 - produce unified paragraphs with adequate details and support
 - use grammatical structures accurately and appropriately
 - write items related to the workplace (minutes, memoranda, notices, summaries, reports etc.
 - filling up of forms, preparing CV, e-mail messages., making notes from reference materials, recorded talks etc. The core course should draw upon the language items suggested for class IX-X and delve deeper into their usage and functions. Particular attention may, however, be given to the following areas of grammar:
 - The use of passive forms in scientific and innovative writings.
 - Convert one kind of sentence/clause into a different kind of structure as well as other items to exemplify stylistic variations in different discourses modal auxiliaries uses based on semantic considerations.

Class XII - Political Science(2024-25)

PART A- Contemporary World Politics

- Enables an understanding of the nature of political interactions amongst the sovereign states in the World.
- Trace the key political events and processes in the post-cold war era.
- Analyze the all-encompassing impact of various global institutions, processes, and events.
- Promote international understanding and respect for humanity.

PART B- Politics in India since Independence

- Understand and analyze constitutional institutions and their working in the post-independence era.
- Appreciate the contribution of political leaders in Nation Building.
- Develop the capacity to link Government structure, processes, and their policies with contemporary political realities.
- Acquaint the students to the changing trends and developments in India.

Class 12 - Mathematics(2024-25)

LEARNING OUTCOMES

Higher secondary students are increasingly expected to engage in mathematical practices to help develop mathematical habits of their minds

The learners may be provided with opportunities individually or in groups and encouraged to think holistically.

The student will be able to :

- Identify different types of relations and functions.
- explore the values of different inverse trigonometric functions
- Evolve the idea of matrices as a way of representing and simplifying mathematical concepts.
- Evaluate determinants of different square matrices using their properties.
- Demonstrate ways to relate differentiability and continuity of a function with each other.
- Develop the processes in Integral calculus based on the ideas of differential calculus learnt earlier. Apply the concepts of Integral calculus to calculate the areas enclosed by curves.
- Develop the concepts of differential equations using the ideas of differential
- Constructs the idea of vectors and their properties and relates them to earlier learnt concepts in different areas of mathematics such as geometry, coordinate geometry etc.
- Calculate conditional probability of an event and uses it to evolve Baye’s theorem and multiplication rule of probability. Determine mean and variance of a probability distribution using the concept of random variables

Class 12 - Economics(2024-25)

Learning Objectives

- Understanding of some basic economic concepts and development of economic reasoning which the learners can apply in their day-to-day life as citizens, workers and consumers.
- Realization of learners' role in nation building and sensitivity to the economic issues that the nation is facing today.
- Equipment with basic tools of economics and statistics to analyze economic issues. This is pertinent for even those who may not pursue this course beyond senior secondary stage.
- Development of understanding that there can be more than one view on any economic issue and necessary skills to argue logically with reasoning.

Theory: 80 Marks (40+40)

Project: 20 Marks

PART A INTRODUCTORY MACROECONOMICS (40 Marks)

- National Income and Related Aggregates
- Money and Banking
- Determination of Income and Employment
- Government Budget and the Economy
- Balance of Payments

PART B INDIAN ECONOMIC DEVELOPMENT (40 Marks)

- Development Experience (1947-90) and Economic Reforms since 1991
- Current Challenges facing Indian Economy
- Development Experience of India – A Comparison with Neighbours

Ist Term

(April - September)

March

Unit 1: National Income and Related Aggregates

What is Macroeconomics?

Basic concepts in macroeconomics: consumption goods, capital goods, final goods, intermediate goods; stocks and flows; gross investment and depreciation.

Circular flow of income (two sector model); Methods of calculating National Income – Value Added or Product method, Expenditure method, Income method.

April	Aggregates related to National Income: Gross National Product (GNP), Net National Product (NNP), Gross Domestic Product (GDP) and Net Domestic Product (NDP) – at market price, at factor cost; Real and Nominal GDP GDP Deflator, GDP and Welfare
May	<p>Unit 2: Money and Banking</p> <p>Money – meaning and functions, supply of money – Currency held by the public and net demand deposits held by commercial banks. Money creation by the commercial banking system. Central bank and its functions (example of the Reserve Bank of India): Bank of issue, Govt. Bank, Banker’s Bank, Control of Credit through Bank Rate, Cash Reserve Ratio (CRR), Statutory Liquidity Ratio (SLR), Repo Rate and Reverse Repo Rate, Open Market Operations, Margin requirement.</p>
July	<p>Unit 3: Determination of Income and Employment</p> <p>Aggregate demand and its components. Propensity to consume and propensity to save (average and marginal). Short-run equilibrium output; investment multiplier and its mechanism. Meaning of full employment and involuntary unemployment. Problems of excess demand and deficient demand; measures to correct them – changes in government spending, taxes and money supply.</p> <p>Unit 4: Government Budget and the Economy</p> <p>Government budget – meaning, objectives and components. Classification of receipts – revenue receipts and capital receipts; Classification of expenditure – revenue expenditure and capital expenditure. Balanced, Surplus and Deficit Budget – measures of government deficit.</p>
August	<p>Unit 5: Balance of Payments</p> <p>Balance of payments account – meaning and components; Balance of payments – Surplus and Deficit Foreign exchange rate – meaning of fixed and flexible rates and managed floating. Determination of exchange rate in a free market, Merits and demerits of flexible and fixed exchange rate. Managed Floating exchange rate system</p>
August/ September	<p>Part B: Indian Economic Development</p> <p>Unit 6: Development Experience (1947-90) and Economic Reforms since 1991</p> <p>A brief introduction of the state of Indian economy on the eve of independence. Indian economic system and common goals of Five Year Plans.</p> <p>Main features, problems and policies of agriculture (institutional aspects and new agricultural strategy), industry (IPR 1956; SSI – role & importance) and foreign trade.</p>

2nd Term

(October – December)

October	<p>Economic Reforms since 1991</p> <p>Features and appraisals of liberalisation, globalisation and privatisation (LPG policy); Concepts of demonetization and GST</p> <p>Unit 7: Current challenges facing Indian Economy</p> <p>Human Capital Formation: How people become resource; Role of human capital in economic development; Growth of Education Sector in India</p>
----------------	---

Rural development: Key issues – credit and marketing – role of cooperatives; agricultural diversification; alternative farming – organic farming
 Employment: Growth and changes in work force participation rate in formal and informal sectors; problems and policies
 Sustainable Economic Development: Meaning, Effects of Economic Development on Resources and Environment, including global warming

Unit 8: Development Experience of India:

Class 12 - History(2024-25)

In class XII the focus will shift to a detailed study of some themes in ancient, medieval, and modern Indian history although the attempt is to soften the distinction between what is conventionally termed as ancient, medieval and modern. The object would be to study a set of these themes in some detail and depth rather than survey the entire chronological span of Indian history. In this sense the course will be built on the knowledge that the students have acquired in the earlier classes.

Each theme in class XII will also introduce the students to one type of source for the study of history. Through such a study, students would begin to see what different types of sources can reveal and what they cannot tell. They would come to know how historians analyse these sources, the problems, and difficulties of interpreting each type of source, and the way a larger picture of an event, a historical process, or a historical figure, is built by looking at different types of sources. Each theme for class XII will be organized around four sub heads:

1. A detailed overview of the events, issues, and processes under discussion.
2. A summary of the present state of research on the theme.
3. An account of how knowledge about the theme has been acquired.
4. An excerpt from a primary source related to the theme, explaining how it has been said by historians.

While the themes in both the classes (XI and XII) are arranged in a broad chronological sequence, there are overlaps between them.

This is intended to convey a sense that chronological divides and periodization do not always operate in a neat fashion. In the textbooks each theme would be located in a specific time and place. But these discussions would be situated within a wider context by.....

- Plotting the specific event within timelines.
- Discussing the event or process in relation to the developments in other places and other times.

APRIL	1 BRICKS, BEADS AND BONES The Harappan Civilisation Broad overview: Early urban centres Story of discovery: Harappan civilization Excerpt: Archaeological report on a major site Discussion: How it has been utilized by archaeologists/ historians
